

CRYO SURGICAL EQUIPMENT

RETI-CRYO

GENERAL INFORMATION

Reti-Cryo is an electrically controlled, easy-to-use cryo surgical unit for ophthalmic surgical needs. The foot pedal is pressed for the desired freeze period and the system automatically initiates the de-freeze cycle. To meet various defreeze cycle durations, a front panel setting allows to set the defreeze duration. These units are supplied with retinal probes or optional probe for glaucoma etc.

FEATURES & SPECIFICATIONS

- Quick Freeze and De-freeze cycles
- Easy to operate electrical foot switch
- Electrically controlled NO Cryo Surgical unit
- Automatic De-Freeze cycle initiation when the foot pedal is released
- Adjustable De-Freeze timing with control switches in the front panel
- Electrical power: AC 100-240 Volts, 50/60 Hz, Single Phase
- Weight: 4 Kg / Dimensions: L 290 mm x D 256 mm x H 62 mm
